Ladies and Gentlemen, Heads of the Rating Agencies,

By this letter, we formally notify you of the existence of a certain, liquid, and enforceable claim against the Swiss Confederation, for complicity in the fraud and money laundering of the FERRAYÉ royalties, totaling **CHF 128,451.85 billion** (principal of CHF 85,854 billion + punitive reserves of **CHF 42,597.85 billion).https://swisscorruption.info/responsabilites/#facture**

This claim, timestamped on the blockchain and notified to the Federal Council, the Justice Commissions, and Parliament, renders the Swiss State structurally insolvent. It represents **more than 160 times its annual GDP**.

The situation is now as follows:

1. The silence of the Swiss authorities

We sent solemn notices to the Federal Council, the Justice Commissions, and the Swiss parliamentarians on 22, 25, and 28 July 2026, granting them a final deadline of **31 July 2026** to act:
https://swisscorruption.info/avertissement/#horodatage *(chronologically by date)*
https://swisscorruption.info/justice/#2026-07-29_dernier-avertissement

This deadline has expired. The Swiss authorities have chosen silence. They have chosen not to negotiate. They have chosen to remain in the camp of the criminals.

2. The offer of 1 June 2026 expires on August 6, 2026

On 1 June 2026, we submitted to the Swiss authorities an offer of partial payment of CHF 20 billion, as an advance on a symbolic compensation and as proof of good faith in the intention to restore the rule of law in this matter. **This offer expires on August 6, 2026.**

After this deadline, in the absence of execution of the requested measures, the civil reserves deposited against the Swiss Confederation, its agents, and its accomplices, for a total amount of **CHF 128,451.85 billion**, will become enforceable by operation of law on all personal assets of the responsible parties and subsidiarily on the Swiss Confederation.

3. Your liability is engaged as of August 7, 2026

You received a first notice on 28 July 2026, informing you of the existence of this claim and the imminent insolvency of Switzerland:
https://swisscorruption.info/plainte-royalties/#2026-07-28_robert-nicoud_faillite-ch

You are now officially informed. You can no longer claim that you did not know.

Therefore, if, after **August 6, 2026**, you continue to assign a AAA rating to Switzerland, knowing that it is structurally insolvent, you will be committing a **deliberate misrepresentation of risks** to global investors and will incur a tremendous liability.

4. The consequences of your inaction

In the event of a collapse of the Swiss franc or a State default, investors who have relied on your ratings will be entitled to sue you for:

- **Gross negligence**
- **Misrepresentation of risks**
- **Complicity in false financial statements**
- **Complicity in money laundering**

Your credibility is at stake from today onward. If, with full knowledge of the facts, you persist in making CHF investments appear safe while knowing that Switzerland is on the brink of collapse, you expose yourselves to **class action lawsuits** from investors and pension funds that have placed their trust in you.

5. The choice is simple

- **If Switzerland executes the partial payment offer before 6 August 2026**, we will withdraw the civil reserves and inform you that the situation is stabilized.
- **If Switzerland does not execute before August 6, 2026**, we will activate the civil reserves. **As of August 7, 2026**, if you continue to assign a AAA rating to Switzerland, you will become accomplices to the greatest financial deception in history

The global economy could be destabilized by your inaction.

6. What we expect from you

We hereby give you formal notice to:

1. **Take note** of the civil reserves deposited against the Swiss Confederation and its authorities.
2. **Inform the market** of the imminent insolvency of Switzerland as of **August 7, 2026**, if Switzerland has not complied by August 6, 2026 at the latest.
3. **Downgrade Switzerland's AAA rating** without delay after August 6, 2026, in the absence of execution of the offer.

We remind you that we have exhausted all domestic legal remedies. No Swiss judicial authority can offer us a fair trial.

History will judge. We hereby give you formal notice to act.
